Proven Leadership in Certification and Training Programs
Presence across India, South East Asia, Africa, Middle East, Europe and USA
Rich Domain Experience with 10000+ Successful Audits and Training Programs

NVT QUALITY CERTIFICATION, INDIA
(NVT QUALITY CERTIFICATION INTERNATIONAL, USA, SINGAPORE & UAE)
QUALITY CERTIFICATION FOR BETTER BUSINESS SUCCESS

Raising the Organization’s Quality Bar

The stated goal of NVT Quality Certification Pvt. Ltd., (NVT QC) is to partner in your journey towards achieving better business success through the implementation of quality management system. At the core of this is our unrelenting focus on impartial certification. We act as custodians of quality, operating third party certification systems in a consistent and reliable manner with a focus on improvement of business processes. To this end, we facilitate improvement in the quality of the deliverables of your organization through process-oriented audits.

AUDITORS AND TUTORS WITH DEEP DOMAIN EXPERTISE

Orienting your Quality Compass for Excellence

Our auditors and tutors come with deep domain expertise with over 900 years of cumulative experience across industries in various quality-led capacities. They bring their unflinching focus on quality to your organization, acting not as judges, but partners in your success. Our auditors and tutors are known to become an inseparable part of your organization’s value chain, continually re-orienting your quality compass for excellence.

UNRELENTING CUSTOMER FOCUS

Putting your Organization at the Center of the Quality Journey

NVT QC prides itself in its responsive and collaborative approach to quality. It has a proven effective and planned methodology for auditing and training. This includes well defined procedures that assist quality service delivery to your organization with professional approach.

WHY NVT QC

NVT Quality Certification (NVT QC) has a blend of deep domain expertise, understanding of business processes, highly experienced auditors, tutors and our global presence makes us uniquely positioned to help you to succeed. NVT QC has been accredited by ANSI-ASQ National Accreditation Board (ANAB), USA and National Accreditation Board for Certification Body (NABCB) India for certification of organization and recognized by Exemplar Global USA for training program. We have been offering certification services and training programs for over 25 years to reputed business groups worldwide in the areas of QMS, AQMS, EMS, OHS, ISMS, ITMS, IATF, MD, FSMS and EnMS standards.
“NVT QC’s auditors and tutors are very positive, professional and are domain experts, which helps them to go into depth in auditing. Nitta Gelatin has greatly benefited through opportunities of improvement established by auditors and management has always appreciated the OFI’s which helps organizations to improve their business and processes.”

EXPERTISE IN THE AEROSPACE AND ALL CRITICAL DOMAINS
Quality that gives wings to your company

The NVT QC’s journey started with the aerospace industry with founder Chairman Mr. K.G. Garg spending several years with a leading Indian Aerospace Company. The grounding in quality and excellence he built in the early days have seen NVT QC rise into prominence as one of the most trusted names in quality in the aerospace and in all critical industry domains. The zero-tolerance for quality issues in the critical areas of all industry sectors has acted as the sole guiding principle of NVT QC.

GLOBAL PRESENCE
India, South East Asia, Middle East, Africa, Europe and USA

NVT QC has carried out audits and offered training programs worldwide. We have the global presence and experience necessary to help organizations to capitalize on opportunities in developed and emerging markets. Our wide geographical coverage (India, South East Asia, Middle East, Africa, Europe and USA) enables us to identify new trends and opportunities.
STANDARDS

TRAINING

NVT QC believes in partnering with your organization to develop in-house skills to implement, audit, optimize and integrate your quality management systems. To this end, we have built a suite of training courses delivered by experienced and competent trainers. Our range of courses will help you use standards to drive organizational improvement and achieve accredited certification.

Overview

One-day program for top management, process owners, performers and internal / new auditors and other professionals in providing an understanding of AS 9100, AS 9110, AS 9120, ISO 9001, ISO 14001, ISO 45001, ISO 27001 standard.

Accreditation
Accreditation is an independent recognition by accreditation boards that the Certification Body meets the requirements of defined criteria or standard.

ANAB: NVT QC has been accredited by American National Standards Institute (ANSI) - American Society for Quality (ASQ) National Accreditation Board (ANAB), USA, for meeting ISO 17021 requirements and for the scope of QMS (ISO 9001), AQMS (AS 9100, AS 9110 and AS 9120) certification.

NABCB: NVT QC has been accredited by the National Accreditation Board for Certification Bodies (NABCB) India, for meeting ISO 17021 requirements and for the scope of QMS (ISO 9001) certification.

NVT QC is one of the most trusted certification bodies and training providers with a proven record of partnering organizations through effective and efficient auditing and training processes to become more competitive in their quality journey. It is through this process-based auditing that clients continue to find success in partnership with NVT QC.

ISO 9001
This is the world’s most widely recognized and widely used Quality Management System (QMS) standard. This quality management system is aimed to help organizations improve overall quality performance across all operations, and outlines ways to achieve, as well as benchmark, consistent performance and service.

The standard promotes the adoption of a process approach emphasizing the requirements, value additions, process performance and effectiveness, and continual improvement through objective measurements. In simple terms, it provides the basis for effective processes and competent people to deliver the required product or service continually. NVT QC provides ANAB and NABCB accredited certificates.

AS/EN 9100, AS 9110 and AS 9120
These are International Standards for Aerospace Quality Management Systems and are applicable to Aerospace Quality Management Systems of organizations that supply product and services to the aerospace and defence industries. These standards are based on ISO 9001:2015 with additional industry specific requirements for aerospace. NVT QC issues ANAB accredited certificates for AS 9100, AS 9110 and AS 9120.

AS/EN 9100:
It is the internationally recognized quality system standard specific to the Aviation, Space and Defence industry. It is used and supported by the world’s leading aerospace companies and throughout their supply chains. AS 9100 can be used by organizations across the aerospace sector, including design, manufacturing, maintenance and distributing companies.

AS/EN 9110:
It is the internationally recognized quality system standard specific to the Aviation Maintenance organizations. It is the quality system aerospace model for quality assurance in maintenance, repair and overhaul of aerospace assemblies and parts. The standard meets the enhanced regulatory requirements to which aerospace repair stations are subjected to.

AS/EN 9120:
It is the internationally recognized quality system standard specific to Stockists and Distributors. The standard meets the enhanced regulatory requirements to which aerospace distributors are subjected to. This standard is not intended for organizations that rework or repair products.
NVT QC is one of the most trusted certification bodies with a proven record of partnering organizations through effective and efficient auditing process to become more competitive in their quality journey. It is through this process-based auditing that clients continue to find success in partnership with NVT QC.

**STANDARDS**

**ISO 14001**
This International Standard specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

**ISO 45001**
This standard specifies requirements for an occupational health and safety (OH&S) management system, and gives guidance for its use, to enable organizations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance. NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

**ISO 27001**
This standard specifies the requirements for establishing, implementing, maintaining and continually improving an information security management system within the context of the organization. NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

**ISO 50001**
This standard specifies requirements for establishing, implementing, maintaining and improving an energy management system (EnMS). NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

**ISO 20000**
This standard specifies requirements for an organization to establish, implement, maintain and continually improve a service management system (SMS). NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.
ISO 22301
This standard specifies requirements to implement, maintain and improve a management system to protect against, reduce the likelihood of the occurrence of, prepare for, respond to and recover from disruptions when they arise. NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

ISO 37001
This standard specifies requirements and provides guidance for establishing, implementing, maintaining, reviewing and improving an anti-bribery management system. NVT QC provides UAF, USA accredited Gabriel Registrar Certificates based on NVT QC audits.

ISO 13485
This standard specifies requirements for a quality management system where an organization needs to demonstrate its ability to provide medical devices and related services that consistently meet customer and applicable regulatory requirements. NVT QC provides UAF, USA accredited Trans Continental Certifications Pvt. Ltd. Certificates based on NVT QC audits.

THE 3 STEPS OF CERTIFICATION

1. Application
Application for registration is forwarded to the organization by NVT QC.

2. Assessment
Assessment is undertaken by NVT QC auditors against the specific requirements of your chosen standard.

3. Certification
Certificate is issued by NVT QC on successful completion of the assessment.
NVT QC is one of the most trusted certification bodies with a proven record of partnering organizations through effective and efficient auditing process to become more competitive in their quality journey. It is through this process-based auditing that clients continue to find success in partnership with NVT QC.

The ISO 14001 certification helps organizations identify and control environmental impacts and improve performance. It is the most recognized international standard for Environmental Management System (EMS). It is designed to help businesses to remain commercially successful without overlooking environmental responsibilities and impacts. It can also help organizations to grow sustainably while reducing the environmental impact by the growth. ISO 14001 is the principal management system standard which specifies the requirements for the formulation and maintenance of an EMS. This helps to control environmental aspects, reduce impact and ensure legal compliance. It provides a framework through which an organization can deliver environmental performance improvement in line with its environmental policy commitments.

The ISO 27001 is the standard that ensures the continued accessibility, confidentiality and integrity of information. It is an excellent framework that helps organizations manage and protect their information assets so that they remain safe and secure; an essential step for protecting organization’s most vital assets. It adopts a process for establishing, implementing, operating, monitoring, reviewing, maintaining and improving an organization’s information security management system.

ISO 9001 is the world’s most widely recognized and widely used Quality Management System (QMS) standard. This quality management system is aimed to help organizations improve overall quality performance across all operations, and outlines ways to achieve, as well as benchmark consistent performance and service. The standard promotes the adoption of a process approach emphasizing the requirements, value additions, process performance and effectiveness, and continual improvement through objective measurements. In simple terms, it provides the basis for effective processes and competent people to deliver the required product or service continually.

“Accreditation is not necessarily the end of all answers to everything, but atleast there are some standards which organisations have to adhere to”

Kevin Bailey

ACCREDITATION

Accreditation is an independent recognition by accreditation boards that the Certification Body meets the requirements of defined criteria of standard.

ANAB

NVT QC has been accredited by American National Standards Institute (ANSI) - American Society for Quality (ASQ) National Accreditation Board (ANAB), USA for meeting ISO 17021 standard requirements and for the scope of ISO 9001 (QMS), AS 9100, AS 9110 and AS 9120 (AQMS) standards certification.

NABCB:

NVT QC has been accredited by the National Accreditation Board for Certification Bodies (NABCB) India, for meeting ISO 17021 standard requirements and for the scope of ISO 9001 (QMS) standard certification.

UAF:
